"I have watched you completely mesmerize a room filled with teachers as you are doing your fairy tale STEM presentation. When you share with them the strategy for building a connection, you take it to the next level. Dr Diane, you just have to know that that's truly a superpower." –Steve Spangler

CONNECTING MULTICULTURAL PICTURE BOOKS AND STEAM EXPERIENCES

WHO WE ARE:

Dr. Diane's Adventures in Learning offers engaging professional development workshops for early childhood and elementary educators. Backed by the latest research and 25+ years of education experience, Dr. Diane Jackson Schnoor will help your team learn how to effectively use STEM/STEAM as a tool for building literacy skills. All programs focus on ways to build connections using multicultural picture books, STEM/STEAM experiences, and your curriculum to support and nurture the 21st century learner. Dr. Diane is available as a keynote speaker, as well as a curriculum consultant for districts looking to better integrate science, STEM, and literacy.

PROFESSIONAL DEVELOPMENT WORKSHOPS/TRAININGS

Beyond Ever After STEAM Workshop: Energize your team with a half or full day workshop where you'll learn how to build connections between reading and literacy, multicultural folk and fairy tales, hands-on science experiences, and STEAM challenges to fully engage your students. You'll walk away with a new perspective on stories, strategies, and ideas designed to awaken your sense of wonder and to help you immediately build science and STEM connections in your early childhood or elementary setting. Learn how to connect science to literacy, oral communication, gross motor skills, math, and dramatic and artistic play. Every activity and strategy can be completed using materials you already have!

"Dr. Diane Jackson Schnoor is an inspiring educator, professional development trainer and program provider."
-Deborah Coconis, Poughkeepsie, NY

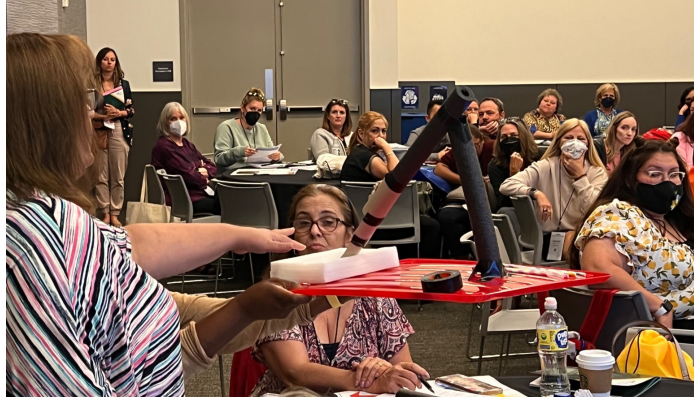

CONNECTING MULTICULTURAL PICTURE BOOKS AND STEAM EXPERIENCES

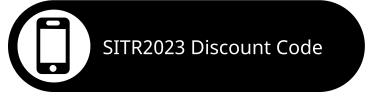

Building STEAM Connections Through Diverse Picture Books:

How do we connect fiction and nonfiction multicultural picture books with STEM/STEAM to help children engage in active discovery and enthusiastic learning across the curriculum while also building literacy? This half or full day workshop gives your team the tools to use multicultural picture books as an inspiration for creative and connected learning experiences that meet NGSS standards. Students will develop empathy as they see themselves and others reflected in the books you use to launch and connect your curriculum experiences.

Beyond Ever After On Demand Virtual Course:

Work at your own pace and learn how to build STEAM connections through multicultural folk and fairy tales: Receive professional development credits upon completion of this 3 hour on demand virtual course produced with Steve Spangler Inc. As a bonus, you also get a 50+ page PDF filled with curriculum connections and program ideas. **Use SITR2023 for special discount.**
